THE BENEFITS |

Exceptional quality

The solid carcass, advanced tyre construction and unique rubber compound make Double Coin tyres exceptional. Our quality tyres are manufactured in the most innovative factories and have proven their quality worldwide.

Extremely low kilometer-price ratio

Double Coin tyres are known for their durability. Due to the robust casing and special tread design which reduces the rolling resistance and indirectly the fuel consumption, our tyres ensure an extremely long life span in relation to the price you pay for them.

Extensive assortment

Tyres for truck, OTR, industrial and PLT are all part of our extensive Double Coin range. More than 40 patterns and 210 sizes are available. From a popular size for trucks to a specific size for heavy OTR vehicles.

ABOUT US |

Shanghai Tyre & Rubber (Group) Company was founded on 19 June 1990 as a strong union and merger between the two largest Chinese tyre manufacturers, Shanghai Dazhonghua Rubber Tyre Factory and Shanghai Zhengtai Rubber Tyre Factory, both established in the 1920s as the first tyre manufacturers in China. It became a listed company in May 1992, issuing shares for the first time in the domestic tyre industry. The company was renamed Shanghai Tyre & Rubber (Group) Company Ltd and in May 2007 renamed Double Coin Holdings Ltd.

Double Coin has become more popular every year since then. The slogan 'Driven the world over' reflects the quality of our tyres, which is proven worldwide. Double Coin is therefore regularly chosen as the perfect alternative to the well-known A-brands. In addition, Double Coin supplies tyres to a growing number of Original Equipment Manufacturers (OEM) of trucks and trailers. Our ambition is to be the first choice in the transport sector worldwide.

DOUBLE COIN TYRES UTILISES INNOVATIVE TECHNOLOGY THAT IMPROVES FUEL EFFICIENCY AND LOWERS OPERATING EXPENSES.

OUR STRENGTH

Exceptional quality. Extremely low kilometer-price ratio. Extensive assortment.

TRUCK TYRES

Truck tyres for all positions and applications

STEER

RR208

THE DOUBLE COIN RR208 IS A TRUCK TYRE WITH ENHANCED ABRASION RESISTANT PERFORMANCE FOR STEER AXLE / TRAILER AXLE POSITIONS.

- Double compound to enhance tread life: upper layer protects of abrasion and lower layer reduces rolling heat and extends mileage performance
- Pattern design with unique middle blocks to fight irregular wear and enhance traction and stability

Pattern	Application		Size	LI/SU	Overall diameter	Width	Thread Depth	Rim
